Each Chapter Development Regional Delivery Team will include two Regional Coordinators who work in partnership with each other.

The Regional Coordinators must be able to provide back up for each other, share the work and be prepared to cover the full Coordinator role to the extent possible if the other steps down and until a new Coordinator is recruited.

Team Members

As a Team, the members will need to be able to provide training and support in chapter development.

The members of the Team must be selected in order to provide the level of coverage of those areas required by the Region.

Senior Manager

One or more staff managers will be attached to the Chapter Development Committee and will be responsible for managing the Regional Coordinators and assisting them in coordinating the Regional Delivery Teams.

Chapter Development Committee

The Senior Manager and Regional Coordinators will be responsible for encouraging effective two-way communication between the Team and the Committee and for sharing both the International and the Regional perspectives. Good communication between the Committee and the related Regional Delivery Teams is essential. Neither the Committee nor the Delivery Teams can fulfil its role without the input and cooperation of the other.

NA and Chapter Contacts

Within NAs, the main contacts for the Chapter Development Regional Delivery Teams should be:

National Presidents
 National Secretaries
 National Treasurers
 National Public Relations Coordinator
 Chapter Presidents (and other Chapter officials as needed)

Chapter Development Regional Delivery Teams should actively build and maintain regional networks of people with these roles in NAs and Chapters.

Other Delivery Teams within the Region

It is essential that within each Region, the Regional Coordinators cooperate closely with each other and work to keep the entire Region connected and, as much as possible, on the same page.

In each Region, the Chapter Development Regional Coordinator will take on a coordinating role for all the Regional Coordinators in that Region. This role is not one of oversight or management, but is rather a commitment to organizing and ensuring regular and effective meetings or other communication among the Regional Coordinators within the Region.

For specific areas there will have to be clear coordination and approval from more than one Team or Coordinator. Of particular note are the following areas:

- Training
 - All trainers must have the necessary knowledge/experience of the content area and must also be certified in training methodology by the Training and Quality Assurance Committee / Regional Training Team.
 - It is up to the Regional Chapter Team to work with NAs and Chapters to determine the training and development needs of the Chapters and it is then up to the Regional Chapter Coordinator to liaise with the relevant Regional Delivery Team to arrange for the training. Regarding programme training, the Hosting Plan should be used to determine priorities for delivery of programme training in the region.
- Risk Management
 - All incidents and formal complaints must be referred to the Regional Risk Manager and any assistance must be provided to investigate such matters.
- Chapters and hosting
 - The Chapter Development Committee is responsible for putting in place and developing the Global Hosting Plan, but must do so in cooperation with the Educational Programmes Committee. They rely on the Regional Teams to give vital input to the plan and to keep the plan on the regional agenda. Regional hosting targets must be developed by both the Regional Educational Programmes and Chapter Teams and then agreed by both the Educational Programmes and the Chapter Development Committees
- Events
 - All multi-national trainings and meetings within the Region must be coordinated with the Training Regional Coordinator (RTF logistics).
 - All trainers assigned to training events must be selected from among those approved by both the relevant content Teams and by the Training Team in terms of training methodology.
- Junior Branch
 - All Regional Teams will have close links with and may have representation from the Regional Junior Branch Team.
- Personnel
 - All recruitment, management or change of personnel must be in line with policies approved by the Resources & Infrastructure Committee. These policies will include the “selection of personnel” information below.

Reporting

The Chapter Development Regional Delivery Team reports via its Coordinators to the relevant Senior Manager(s) and, by extension to the Chapter Development Committee. It is up to the Senior Managers and the Chapter Development Committee to provide any necessary support and guidance to the Regional Coordinators.

Other Regions

It is anticipated that Regional Coordinators will liaise with and cooperate with their counterparts in other Regions. This will be facilitated by the Senior Manager.

Meetings

It is anticipated that through effective use of opportunity and budget, many of the Team members within each Region will be able to meet some of their peers at Regional Meetings and Training Forums, each year or every other year.
